

ENVIRONMENTAL POLICY

This is a translation of the policy in Swedish, that is the official Environmental Policy.

Our business of molding rubber components shall contribute to the protection of the environment and savings of natural resources.

We, Gotlands Gummifabrik AB shall:

- Keep us updated, and follow laws, regulations and other requirements that concerns us.
- Continuous work with environmental improvement.
- Minimize our impact on the surrounding environment, during both normal and un-normal operations, and emergencies, through risk analysis and preventive actions.
- Seek for minimizing our production waste, and sort fractions that can be re-cycled.
- Be given the opportunity to training, in order to achieve commitment and participation.
- Propose improvements, both internally and to suppliers and customers, to minimize the impact of the environment.
- In an open dialogue, present our environmental work to our stakeholders.

This environmental policy will form the basis of setting the overall and detailed objectives and targets.

This environmental policy shall be available for everybody, on our Intranet and on our website.
